Dear Sir:

Pleased to hear that you received our signal in Omaha. Our studios are located at 115 ½ S. Egan in downtown Madison, and the xmitter is located three miles west of Madison on Hi-way 81. The xmitter is a 550A Collins type 500 watts. We use a 150' Non Dir. antennae and operate daytime only.

On the morning that you received our signal, we were conducting a freq. check with Kansas City.

I'm sorry but we don't have any coverage maps yet. We went on the air on December 3, 1960.

Very truly yours
John A. Geeman
